### SAY AMERICANS OPPOSE PHILIPPINE FREEDOM

Recent dispatches from Manila declaring that several Filipino busness men were preparng a memorial urgigorrotes were voicing opposition to independence to the Wood-Forbes mission are attacked in a statement issued by the press bureau of the Philippine

by the press bureau of the Philippine mission here.

The statement declares that the Manila business men opposing independence are Americans and not Filipinos, and that the Igorrote tribesmen who appeared before the Wood-Forbes mission were not representative nor many. The bureau has been advised from Manila that the Igorrotes who appeared were acting at the instance of American missionaries.

"If Congress will pass a bill granting independence, with the qualification that a majority of the voters must first add their approval," says the bureau's statement, "it will be satisfactory to us. This is our answer to the shopworn canard that the Filipino people do not really desire independence."
